DANGEROUS PRACTICE.
The use of Morphine, Strychine, Aconite, Belladonna, Arnica and other poisons, and only dangerous but cruel. The effect of these poisons is not to cure the disease, or to remove from the system the pains; but to beaden the nerves, to weaken and stop the nerveus energy, to paralyze the functions of the nervous system & destroy sensation. If this practice is continued for any length of time the patient will not only waste away, but the brain will become paralyzer, and the intellect destroyed.
